

SUCCESS STORY

The Challenge

Yira Hoffmann, Payroll Manager at Tomcat Construction, faced challenges managing payroll across various states. QuickBooks couldn't handle multi-state payroll adequately, and writing separate checks for employees was cumbersome. Additionally, inconsistent customer service from their previous provider added to the stress.

The eBacon Solution

eBacon provided:

- **Multi-State Payroll:** Seamless payroll management across states.
- **Certified Payroll Compliance:** Expertise in prevailing wage laws.
- **Responsive Support:** Consistent, reliable customer service, especially from eBacon Management.

Final Impact

eBacon simplified Tomcat's payroll process, ensured compliance, and offered responsive support. Yira rates eBacon 8 out of 10 for its service and efficiency.

"Certified payroll complexities are a non-issue for us now. My primary concern is compliance with state law for multiple state management, and eBacon has been instrumental in alleviating that worry."
